Public Speaking, Writing & Math Classes Youth & Teens

Pre-Public Speaking

Succeed in school, career and life! Learn effective communication skills early! Its been found that the fear of communication is developed in elementary grades. Fear can profoundly affect a student's educational, emotional and social skills. However, most schools do not have strong emphasis in communication skills. This class introduces an overview on nonverbal communication skills in vocal, gesture, eye contact and visual aids. Students gain self-confidence in applying these skills in speeches (show and tell, telling jokes/riddles, presenting current events and running for class president). Students present final speeches to parents in the last class. Formal presentations will be recorded on DVD's and given to the parents. Class is designed to be repeatable with different curriculums each session. Ages 5-8.

Please Note:

- Instructor: Communications Academy Staff.
- Classes held at Community Center.
- A \$10 material fee is payable to instructor at first class meeting.
- No class held April 20.

MPM - Math

MPM - Math (Multi-Process-Model Math) challenges students to probe and engage themselves in critical thinking activities. This is accomplished by exposing the children's minds to problems, puzzles, sorting in sets, spatial correspondence, inverse reasoning and other factors in a well sequenced math program. MPM Math sharpens and refines students overall math skills by balancing the growth of math concepts and computation abilities. All new students need to take a diagnostic exam for placement (DEP) at first class meeting (testing fee is \$25). Ages 5-8 (Grades K-3).

Public Speaking

Succeed in school, career and life! Learn effective communication skills early! Researchers have found that fear of communication is developed in elementary grades. This fear can profoundly affect a student's educational, emotional and social skills. However, most schools do not have strong emphasis in communication skills. This class teaches students how to conquer fear, master nonverbal communication skills in vocal, body language, eye contact, visual aids and speech writing process. Students will gain self-confidence by practicing impromptu and informative speeches daily. Students present final speeches to parents in the last class. Formal presentations will be recorded on DVD's and given to the parents. Ages 9-14.

Please Note:

- Instructor: Communications Academy Staff.
- Classes held at Sports Center.
- A \$25 material fee is payable to instructor at first class meeting.
- No class held April 22.

Creative Writing

Succeed in school, career and life! Finally a class that goes beyond the five paragraph essay and encourages students to write for fun! Research shows that when kids find writing fun, they are more likely to learn how to write effectively. This class uses fun writing exercises and writing stories to reinforce core writing skills such as the effective use of words, grammar, punctuation, spelling and structure. Students learn multiple approaches to preparation, a key step in writing effectively, write their own stories, and learn how to revise what they have written. Small class of 12 students allows for ample personal feedback. Ages 8-11.

Please Note:

- Instructor: Communications Academy Staff.
